## EQUIPMENT DETAILS OF ICI PILLING AND SNAGGING TESTER

### APPLICATION

To determine the pilling and snagging resistance of textile fabrics.

### FEATURE

1. Specially designed equipment to assess resistance to pilling of any type of fabrics as per ICI pilling system.
2. Two Pilling Boxes for better efficiency of work.
3. Microprocessor based controller with latest aesthetics.
4. 3.2mm Standard cork lining inside the boxes for proper pilling action.
5. Finest Quality Molded Polyurethane Pilling Tubes supplied (16Nos).
6. Specially designed standard size boxes meet the standard specifications.
7. Complete with all accessories-pilling tube, template, 19mm PVC Tape etc.
8. Smooth precision engineered components for excellent performance.
9. Innovative specimen-mounting jig saves efforts and reduces the chance of damage or distortion to the sample.
